# decente

pure lines

Clean lines, timeless design togethe with
noble natural materials characterize DECENTE
series. Wider, luxurious looking glass, wooden,
metal or plexi-glass frames brilliantly accompany
various modern interior styles. Frames of
minimal thickness provide an elegant feel.
Covers are made of high quality,
UV-stable plastic.

timeless design

Various materials of different shades of glass, wood, metal, and plexiglass allow for coordination with the interior according to your preferences.

hotel systems

comfortable for guests, simple and effective for staff

ACS-line Reception Hotel System by Estelar Company is designed to secure all activities related to running a hotel or pension. The system includes wall-mounted card readers and energy savers in Decente design available in all standard colours and materials which can match other switches and outlets in Decente design. One hotel card will allow room access, lift control, access to authorized areas (parking, wellness, etc.), payments in hotel bars and restaurants, use of other services (bike rental, ski passes, etc.).

card reader

Card reader (built-in card scanner) is a device for reading cards and controlling individual access according to permission. Typical use is e.g. opening of hotel entrance door, hotel room access, opening of wellness door within allowed time.
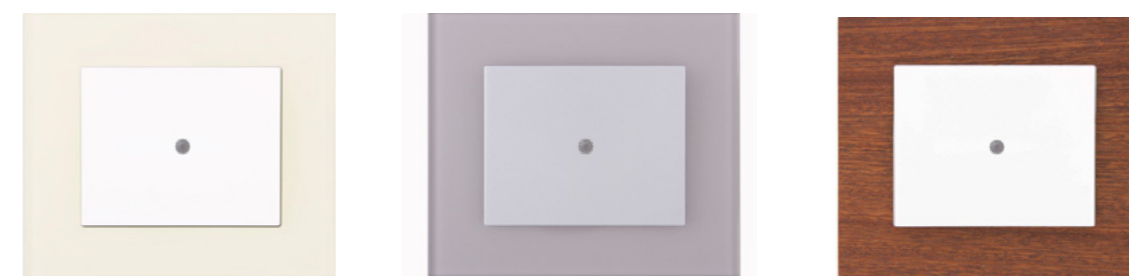

ORDER CODE:
DSD 00-**CK0YY**-H1XX

energy saver

Energy Saver is a device that allows to insert a card and thereby invoke an action that lasts while the card is inserted. The device is equipped with a card reader and responds only to authorized cards, so it is not possible to replace the card with for example sturdy paper. Typical use is in a hotel room where the wiring is active only in the presence of a guest or for light control in the meeting room according to its occupancy. Connection of heating sensors for controlling room temperature is also available.

The producer of hotel card readers and hotel systems is ESTELAR, s. r. o.
More info to be found at **www.acsline.cz.**

Card readers are offered in DECENTE design with white, black or metallic cover. Frame can be chosen from glass, wood, metal, plexi or plexiglass collection.

smart home solution

smart home solution

The so-called smart house or home automation provide not only high living comfort, save energy costs, increase safety and entertainment at your fingertips.

Smart home can be controlled by:

- wall mounted short press switches - which you can choose from our timeless DECENTE design
- touch panels
- devices running on iOS or Android systems (computers, smartphones,...)

- TV
- LAN
- sensors and other controllers connected to main central-control unit

compatible smart systems

KNX   LOXONE
