The logo graphic consists of a large, light gray outer circle and a smaller, white inner circle. The text is centered within the white inner circle.

OBZOR

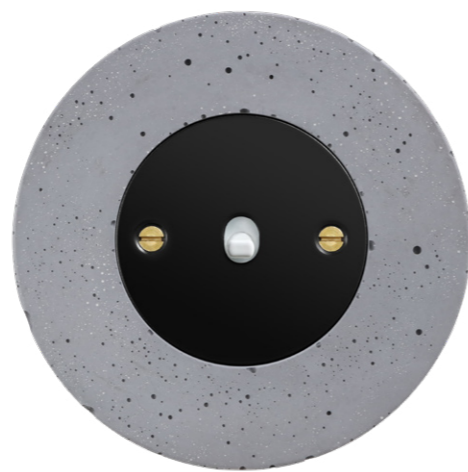

switches & outlets
made in Czech Republic

retro

original design
inspired by The First
Republic era

concrete

Letting concrete into your home needs a little courage ... the rawness of the material together with non-conflict grey tone is though a great win for industrial interior. The attractiveness of concrete frames is crowned with characteristic porous structure of the surface.

glass

Glass... timeless material that defines its purity of design. Its elegance provides delicate beauty combined with high resistance.

wood

Wood lovers will be attracted by solid frames of maple, light oak and dark stained oak in combination with white or black covers.

ceramic

Ceramic... typical material of the The First Republic era which is still an inspiration for today's design.

Different types of rotary / toggle switching elements emphasize the overall originality.

hand-painted ceramic

Hand-painted motives on ceramic frames... let the folklore lavishness enrich any space.

frame multiplicities

	dimensions (h×w) 97×97 mm	all collections
	dimensions (h×w) 97×168 mm	ceramic (except hand-painted), concrete, wood and glass collection only
	dimensions (h×w) 97×239 mm	ceramic (except hand-painted), concrete, wood collection only
	dimensions (h×w) 97×310 mm	wood collection only

concrete ** (on request)

*For wooden frames we use only solid wood therefore each frame is unique and tone/pattern might slightly vary.
** Every single frame has a unique structure.

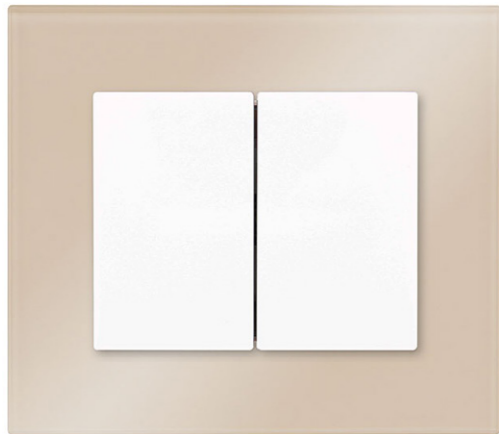

decente

clean lines, timeless design
and noble materials

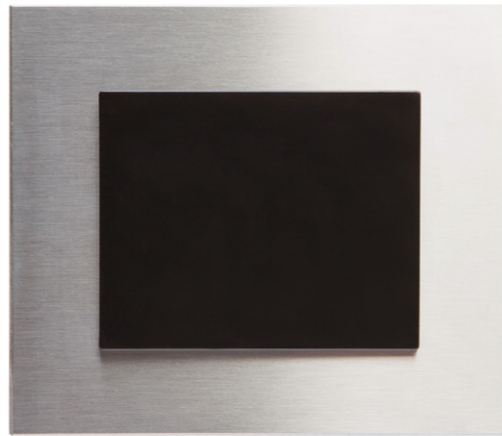

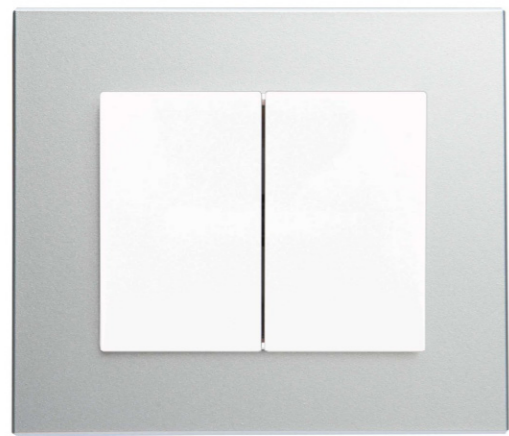

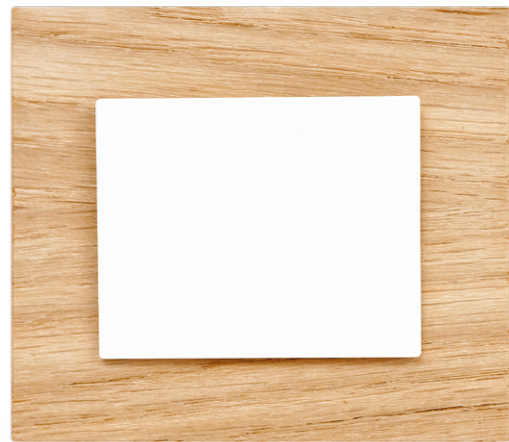

clean lines

Simplicity and elegance of shape together with frame subtlety and noble materials... the main features of DECENTE series, exceptional for its 3D effect.

noble materials

Glass, wood veneer (oak, walnut, mahogany), stainless steel and aluminium, concrete, plexiglass and plexi of DECENTE switches and outlets will bring a thing of harmony into every single interior style. Covers are available in several colours, mat finish included.

*For wooden frames we use natural wood veneer therefore each frame is unique and tone/pattern might slightly vary.
** Every single frame has a unique structure.

vectis

by ISD

minimalist all
the way

In cooperation with ISD company we are introducing VECTIS. The VECTIS product line is characterized by minimalism in shape and colour. It is made of aluminum in white or black matt, silver or gold design, gold patina or in four brushed colours. Monolithic panel is brightened up by a subtle lever, a toggle, which refers to historical switches.

Vectis series is manufactured by ISD Poland. OBZOR is an exclusive distributor for Czech Republic and Slovakia.
